Body Style:
Straight shape, external coupling
Overall Length:
5.9 inches
Overall Diameter:
Between 1.14 inches and 1.45 inches
Mating End Quantity:
1
Product Name:
Connector shell kit
Special Features:
Housing alloy nickel aluminum bronze; d-hole blkhd, lp, tfoca-11 repl., pro beam jr; locking nut in nickel with no finish; d-hole housing in
nickel with no finish; compression sleeve material nickel with no finish; front housing short with nickel material and no finish; front seal with
material fluorosilicone; protective cap thermoplastic; tether is plasticoated steel wire; panel nut is nickel with no finish
Shelf Life:
N/a
Unit Of Measure:
-
Demilitarization:
No
Fiig:
A039b0
