Overall Length:

6.0 inches

Overall Height:

1.5 inches

Overall Width:

4.0 inches

Body Angle In Deg:

90.0

End Application:

Ah-64d

Mounting Facility Type And Quantity:

2 bracket

Product Name:

Backshell electrical connector

Special Features:

81346-astm b 85 or 81346-astm b 211 or 81346-astm b 221 or 81348-ams-qq-a-255 for material

Material:

Aluminum alloy and stainless steel

Precious Material And Location:

Ground spring gold

Surface Treatment:

Passivate and cadmium

Style Designator:

Angle type

Specification Data:

96906-mil-std-1344, method 1001 government standard and 81349-mil-g-45204, type 2, class 1 government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10100
