Body Style:

Rectangular shape

Overall Length:

10.0 millimeters

Overall Height:

7.60 millimeters

Overall Width:

4.40 millimeters

Product Name:

Wire-to-board header

Special Features:

Dielectric withstanding voltage: 500v ac/1min, insulation resistance: 1000 m min, housing: glass-filled 6/6 mylon, ul 94v-0, contact: phosphor bronze, plating: tin, operating temperature: -20 to +85 degree c.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
