**Thread Direction:**

Right-hand

**Overall Width:**

Between 0.918 inches and 0.938 inches

**Body Angle In Deg:**

90.0

**Attachment Feature Length:**

12.00 inches

**End Application:**

B2 cvri1 a gr

**Cable Opening Diameter:**

Between 0.365 inches and 0.385 inches

**Distance From Centerline To Connector End:**

1.188 inches

**Distance From Centerline To Cable End:**

1.500 inches

**Cable Opening Quantity:**

1

**Size Designation:**

B

**Mounting Facility Type And Quantity:**

1 threaded coupling

**Features Provided:**

Electromagnetic interference shielding

**Thread Size:**

15.0 millimeters

**Thread Tolerance Class:**

6h internal

**Special Features:**

The finish is olive drab in color. Is self-locking and has a ground ferrule. Does not have a clamp but instead has a silver plated, copper wire mesh shield sock.

**Material:**

Aluminum alloy

**Precious Material And Location:**

Shield sock plating silver

**Surface Treatment:**

Cadmium and nickel alloy

**Style Designator:**

Angle type w/clamp

**Thread Series Designator:**

Iso m

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A10100
