**Overall Length:**

4.50 inches

**Overall Width:**

2.78 inches

**End Application:**

5895-01-627-0485

**Product Name:**

Twist-lock watertight safety-shroud plug

**Special Features:**

Wiring scheme - 2 - pole, 3 - wire grounding; nema configuration - I5-20p; item style - shrouded watertight; cord diameter - .360 inches - 930 inches; blade holder material - natural white nylon; blade material - brass; terminal clamp material .08 inches (2) steel-nickel plated; terminal screw material number 10-32 brass (white finish on neutral screw when used) multi-drive; ground screw material - number 10-32 brass (green finish) multi-drive; cord clamp screw material - stainless steel, multi-drive; body holding screw material - stainless steel, multi-drive; moisture resistance - type 4, 4x, 12, ip66 suitability; closure cap and strap epdm blend; safety-shroud material - white valox

**Supplementary Features:**

Amperage - 20a; voltage - 125v ac; device color - black/white; rosepower - 1; terminal retainer material - clear polycarbonate; dielectric voltage withstand - 2, 000v ; terminal accommodation - 20a number 12 awg; operating temperature - continuous 75 c - minus 40 c (w/o impact)

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T23700
