Terminal Board Quantity Per Assembly:

1

Terminal Board Manufacturer Code And Part Number:

4995-65-036-3501

Assemblylength:

2.500 inches

Assemblywidth:

2.000 inches

End Application:

Remote control guided missile

Contact Terminal Quantity:

27

Special Features:

Stacked assembly; body style 9; board material plastic; 2 piece board construction; nonfeedthru terminal style 442; mounting provisions unthreaded holes; mounting provisionsquantity type 4; mounting hole diameter 0.156 inches; center to center distance between mounting facilities parallel to the length 2.125 inches; center to center distance between mounting facilities parallel to the width 1.375 inches. Distance from bottom edge of terminal board to center of mounting hole 0.312 inches; distance from left edge of terminal board to center of first mounting facili type 0.188 inches. Current rating in amperes not rated; dielectric withstanding voltage rating in kilovolts not rated; fanning holes not provided; radio interference shielding not provided; color any acceptable; marker strip type not applicable; special markings-component markings

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
