Overall Length:

1.700 inches

Overall Width:

0.500 inches

Material Thickness:

0.048 inches

Maximum Conductor Size Accommodated:

6 awg

Electrical Insulation Feature:

Insulating sleeve

Mounting Method Style:

Tapered

Mounting Hole Diameter:

0.265 inches

Mounting Tongue Width:

0.500 inches

Mounting Facility Thickness:

0.048 inches

Identification Code Color:

Blue

Basic Shape Style:

Crimp

Conductor Accommodation Type:

Straight barrel single end

Material:

Plastic polyamide insulation

Surface Treatment:

Tin except insulation single layer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A006b0
