Overall Length:

1.578 inches

Overall Diameter:

0.641 inches

Usage Design:

Adapts antenna connector on anppn18 transponer set to radio frequency cable assembly connector for testing purposes

Special Features:

1.35 voltage standing wave ratio, 0.35 decibel insertion loss; body material: metal

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A536x0
