Mounting Hole Diameter:

0.250 inches

Body Style:

Block type

Board Construction:

Solid construction

Center To Center Distance Between Mounting Facilities Parallel To Length:

13.250 inches

Center To Center Distance Between Mounting Facilities Parallel To Width:

3.250 inches

Boardlength:

15.250 inches

Boardwidth:

3.875 inches

Boardheight:

0.375 inches

Nonfeedthru Terminal Quantity:

14 single

Special Markings:

1 through 7

Material:

Plastic phenolic board and paper board

Material Specification:

L-p-513, type pbe federal specification single material response board

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A011b0
