Mounting Hole Diameter:

0.120 inches

Board Construction:

Solid construction

Terminal Facility Quantity:

2

Center To Center Distance Between Mounting Facilities Parallel To Length:

2.093 inches

Boardlength:

2.500 inches

Boardwidth:

0.375 inches

Boardheight:

0.375 inches

Mounting Facility Type And Quantity:

2 unthreaded hole

Feedthru Terminal Quantity:

4 single combination

Nonfeedthru Terminal Quantity:

9 single

Material:

Plastic phenolic board and silica board

Material Specification:

Mil-p-14d, ty mne military specification all material responses board

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A011b0

Mil-std (military Standard):

Mil-p-14d spec.
