Overall Length:

0.766 inches

Overall Diameter:

0.422 inches

Maximum Conductor Size Accommodated:

14 awg

Electrical Insulation Feature:

Insulating sleeve

Basic Shape Style:

Spiral spring

Conductor Accommodation Type:

Spiral spring single end

Special Features:

Rated for 600 volts

Material:

Plastic insulation

Specification Or Standard:

I type and 1 class and cu kind and g style

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A006b0
