Overall Length:

0.846 inches

Overall Width:

0.250 inches

Material Thickness:

0.031 inches

Maximum Conductor Size Accommodated:

14 awg

Electrical Insulation Feature:

Insulating sleeve

Mounting Method Style:

Shouldered hole

Mounting Hole Diameter:

0.144 inches

Mounting Tongue Width:

0.250 inches

Mounting Facility Thickness:

0.031 inches

Identification Code Color:

Blue

Basic Shape Style:

Crimp

Conductor Accommodation Type:

Recessed barrel single end

Material:

Plastic vinyl insulation

Surface Treatment:

Copper except insulation single layer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A006b0
