Overall Length:

2.500 inches

Overall Width:

1.380 inches

Electrical Insulation Feature:

Uninsulated

Basic Shape Style:

Mechanical compression

Conductor Accommodation Type:

Split bolt w/spacer single end

Nut Width Across Flats:

1.380 inches single end

Special Features:

Designed to splice dissimilar metals, copper to aluminum, copper to steel, aluminum to steel

Material:

Copper alloy conductor accommodation

Surface Treatment:

Tin conductor accommodation single layer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A006b0
