Overall Length:

1.064 inches

Overall Width:

0.469 inches

Electrical Insulation Feature:

Uninsulated

Basic Shape Style:

Mechanical compression

Conductor Accommodation Type:

Split bolt w/spacer single end

Nut Width Across Flats:

1.064 inches all ends

Special Features:

Designed to splice dissimilar metals, copper to aluminum, copper to steel, steel to aluminum

Material:

Copper alloy conductor accommodation

Surface Treatment:

Tin conductor accommodation single layer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A006b0
