Overall Length:

0.937 inches

Maximum Conductor Size Accommodated:

16 awg

Electrical Insulation Feature:

Insulating sleeve

Identification Code Color:

Blue

Basic Shape Style:

Crimp

Conductor Accommodation Type:

Straight barrel all ends

Material:

Plastic polycarbonate insulation

Nuclear Hardness Critical Feature:

Hardened

Surface Treatment:

Tin conductor accommodation single layer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A006b0
