Overall Thickness:

0.012 inches

Unit Type:

Angle

Mounting Method:

Hole

Contact Finger Quantity:

7

Special Features:

Washer is intended for electrical bonding of rack mounted electronic equipment per mil-b-5087

Material:

Beryllium copper

Material:

Copper alloy

Surface Treatment:

Tin

Surface Treatment:

Tin plated

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T174-b
