Overall Length:

0.415 inches

Overall Width:

0.100 inches

Material Thickness:

0.022 inches

Largest Width:

0.062 inches all ends

Electrical Insulation Feature:

Uninsulated

Mounting Method Style:

Shouldered hole

Mounting Tongue Width:

0.100 inches

Mounting Facility Thickness:

0.022 inches

Identification Code Color:

Blue

Mounting Slot Width:

0.062 inches

End Application:

F-15 aircraft

Basic Shape Style:

Solder/solderless

Conductor Accommodation Type:

Clamping tang ears all ends

Special Features:

Surface finish ph per tek standard f-103

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A006b0
