Overall Length:

2.781 inches

Maximum Conductor Size Accommodated:

0 awg

Electrical Insulation Feature:

Insulating sleeve

Identification Code Color:

Yellow

Basic Shape Style:

Twisting sleeve

Material:

Copper conductor accommodation and tin conductor accommodation

Material Specification:

Qq-c-576 federal specification 1st material response conductor accommodation and mil-t-10727 military specification 2nd material response conductor accommodation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A006b0

Mil-std (military Standard):

Mil-t-10727 spec.
