Mounting Hole Diameter:

0.180 inches

Body Style:

Barrier type

Terminal Row Quantity:

5

Distance Between Terminal Row Centers:

0.438 inches

Board Construction:

Hollow construction with insulated strip

Boardlength:

3.000 inches

Boardwidth:

1.125 inches

Board Height Excluding Terminals:

0.500 inches

Base Thickness:

0.313 inches

Board Thickness:

0.422 inches

Current Rating In Amps:

20.0

Mounting Facility Type And Quantity:

4 unthreaded hole

Terminal Pattern Arrangement:

Multi-row

Material:

Plastic phenolic board

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A011b0
