End Application:

Precision approach path indicator

Current Rating In Amps:

20.0

Voltage Rating:

300.0 volts

Special Features:

Cthermoplastic polyester, 1.2000 in.Lg, number terminal posn is 7.Terminals are bright acid-tin plated brass.Screws are cadmium plated steel, 3-48unc.; wire range is 12-22 awg.Center spacing is 0.200;

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510r0
