**End Application:**

Precision approach path indicator

**Current Rating In Amps:**

20.0

**Voltage Rating:**

300.0 volts

**Special Features:**

Cthermoplastic polyester, 1.2000 in.Lg, number terminal posn is 7.Terminals are bright acid-tin plated brass.Screws are cadmium plated steel, 3-48unc.; wire range is 12-22 awg.Center spacing is 0.200;

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A510r0
