Sectional Terminal Junction Block - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5940-01-290-2438

#### **End Application:**

Precision approach path indicator

### **Current Rating In Amps:**

20.0

# Voltage Rating:

300.0 volts

### **Special Features:**

Cthermoplastic polyester, 1.2000 in.Lg, number terminal posn is 7.Terminals are bright acid-tin plated brass.Screws are cadmium plated

steel, 3-48unc.; wire range is 12-22 awg.Center spacing is 0.200;

### Shelf Life:

N/a

### Unit Of Measure:

---

## Demilitarization:

No

#### Fiig:

A510r0
