Overall Length:

1.060 inches

Overall Width:

0.360 inches

Material Thickness:

0.040 inches

Maximum Conductor Size Accommodated:

10 awg

Electrical Insulation Feature:

Insulating sleeve

Mounting Method Style:

Open slot w/lip

Mounting Tongue Width:

0.360 inches

Mounting Facility Thickness:

0.040 inches

Identification Code Color:

Red

Mounting Slot Width:

0.210 inches

Basic Shape Style:

Crimp

Criticality Code Justification:

Aapc

Conductor Accommodation Type:

Recessed barrel single end

Material:

Plastic insulation

Precious Material And Location:

Term. Ext. Surf silver

Precious Material And Weight:

0.040 silver grains, troy

Precious Material:

Silver

Surface Treatment:

Gold except insulation single layer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A006b0
