Lug Terminal - Page 1 of 2 View Online at https://aerobasegroup.com/nsn/5940-01-317-1142 **Overall Length:** 1.060 inches **Overall Width:** 0.360 inches **Material Thickness:** 0.040 inches **Maximum Conductor Size Accommodated:** 10 awg **Electrical Insulation Feature:** Insulating sleeve **Mounting Method Style:** Open slot w/lip **Mounting Tongue Width:** 0.360 inches **Mounting Facility Thickness:** 0.040 inches **Identification Code Color:** Black

Mounting Slot Width:

0.210 inches

Basic Shape Style:

Crimp

Criticality Code Justification:

Aapc

Conductor Accommodation Type:

Recessed barrel single end

Material:

Plastic insulation

Precious Material And Location:

Term. Ext. Surf silver

Precious Material And Weight:

0.040 silver grains, troy

Precious Material:

Silver

Surface Treatment:

Gold except insulation single layer

Shelf Life:

N/a

Unit Of Measure:

Demilitarization:

No
