Overall Length:

0.750 inches

Maximum Conductor Size Accommodated:

10 awg

Electrical Insulation Feature:

Standoff insulation

Identification Code Color:

Tan

Basic Shape Style:

Spiral thread

Conductor Accommodation Type:

Triple turret all ends

Special Features:

Operating temperature 105 degrees c ; voltage rating 600 for building wire, 1000 in signs or fixtures; has a live spring which assures a tight grip, meets the quality requirement of oems and residential electrical contractors, copper conductors only; item is a hyflex insulated electrical electrical spring connector

Material:

Copper alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A006b0
