Overall Height:
1.780 inches
Maximum Height Above Mounting Surface:
0.980 inches
Electrical Insulation Feature:
Insulating mounting bushing
Identification Code Color:
Green
Basic Shape Style:
Single post, round (post binding)
Features Provided:
Mounting hardware
Conductor Accommodation Type:
Screw cap w/hole single end
Cap Outside Diameter:
0.440 inches
Special Features:
Straight mtg hole, flat one side; 8-32 thread
Straight mtg hole, flat one side; 8-32 thread
Straight mtg hole, flat one side; 8-32 thread Material:
Straight mtg hole, flat one side; 8-32 thread Material: Plastic polycarbonate insulationcopper alloy except insulation
Straight mtg hole, flat one side; 8-32 thread Material: Plastic polycarbonate insulationcopper alloy except insulation Surface Treatment:
Straight mtg hole, flat one side; 8-32 thread Material: Plastic polycarbonate insulationcopper alloy except insulation Surface Treatment: Tin except insulation single layer
Straight mtg hole, flat one side; 8-32 thread Material: Plastic polycarbonate insulationcopper alloy except insulation Surface Treatment: Tin except insulation single layer Shelf Life:
Straight mtg hole, flat one side; 8-32 thread Material: Plastic polycarbonate insulationcopper alloy except insulation Surface Treatment: Tin except insulation single layer Shelf Life: N/a
Straight mtg hole, flat one side; 8-32 thread Material: Plastic polycarbonate insulationcopper alloy except insulation Surface Treatment: Tin except insulation single layer Shelf Life: N/a Unit Of Measure:
Straight mtg hole, flat one side; 8-32 thread Material: Plastic polycarbonate insulationcopper alloy except insulation Surface Treatment: Tin except insulation single layer Shelf Life: N/a Unit Of Measure:
Straight mtg hole, flat one side; 8-32 thread Material: Plastic polycarbonate insulationcopper alloy except insulation Surface Treatment: Tin except insulation single layer Shelf Life: N/a Unit Of Measure: Demilitarization:
Straight mtg hole, flat one side; 8-32 thread Material: Plastic polycarbonate insulationcopper alloy except insulation Surface Treatment: Tin except insulation single layer Shelf Life: N/a Unit Of Measure: Demilitarization: No
Straight mtg hole, flat one side; 8-32 thread Material: Plastic polycarbonate insulationcopper alloy except insulation Surface Treatment: Tin except insulation single layer Shelf Life: N/a Unit Of Measure: Demilitarization: No Fiig:
Straight mtg hole, flat one side; 8-32 thread Material: Plastic polycarbonate insulationcopper alloy except insulation Surface Treatment: Tin except insulation single layer Shelf Life: N/a Unit Of Measure: Demilitarization: No Fiig:
