| Overall Height:                                                |
|----------------------------------------------------------------|
| 1.780 inches                                                   |
| Maximum Height Above Mounting Surface:                         |
| 0.980 inches                                                   |
| Electrical Insulation Feature:                                 |
| Insulating mounting bushing                                    |
| Identification Code Color:                                     |
| White                                                          |
| Basic Shape Style:                                             |
| Single post, round (post binding)                              |
| Features Provided:                                             |
| Mounting hardware                                              |
| Conductor Accommodation Type:                                  |
| Screw cap w/hole single end                                    |
| Cap Outside Diameter:                                          |
| 0.440 inches                                                   |
| Special Features:                                              |
| Straight mtg hole, flat one side; 8-32 thread                  |
| Material:                                                      |
| Plastic polycarbonate insulationcopper alloy except insulation |
| Surface Treatment:                                             |
| Tin except insulation single layer                             |
| Shelf Life:                                                    |
| N/a                                                            |
| Unit Of Measure:                                               |
|                                                                |
| Demilitarization:                                              |
| No                                                             |
| Fiig:                                                          |
| A006b0                                                         |
|                                                                |
|                                                                |
