Overall Length:

1.000 inches

Overall Height:

1.300 inches

Overall Width:

0.301 inches

Operating Temperature Range:

-55.0/+125.0 degrees celsius

Current Rating In Amps:

20.0

Criticality Code Justification:

Feat

Special Features:

Body material polyetherimide; color green per dac approval; contacts and retention clip material is single piece beryllium copper; wire seal grommet material is silicone rubber, 35-55 shore a hardness; the contact clip retention spring and bus assembly shall be gold plated

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
