| Overall Length:                       |
|---------------------------------------|
| 1.220 inches                          |
| Overall Width:                        |
| 0.475 inches                          |
| Material Thickness:                   |
| 0.070 inches                          |
| Maximum Conductor Size Accommodated:  |
| 14 awg                                |
| Electrical Insulation Feature:        |
| Insulating sleeve                     |
| Mounting Method Style:                |
| Ring                                  |
| Mounting Hole Diameter:               |
| 0.250 inches                          |
| Mounting Tongue Width:                |
| 0.475 inches                          |
| Basic Shape Style:                    |
| Crimp                                 |
| Conductor Accommodation Type:         |
| Straight barrel single end            |
| Special Features:                     |
| 4 to 5 wires per hylug                |
| Material:                             |
| Copper                                |
| Surface Treatment:                    |
| Nickel except insulation single layer |
| Shelf Life:                           |
| N/a                                   |
| Unit Of Measure:                      |
|                                       |
| Demilitarization:                     |
| No                                    |
| Fiig:                                 |
| A006b0                                |
|                                       |
