Overall Length:
1.220 inches
Overall Width:
0.280 inches
Material Thickness:
0.032 inches
Largest Width:
0.280 inches all ends
Electrical Insulation Feature:
Insulating sleeve
Mounting Method Style:
Straight two hole
Mounting Tongue Width:
0.280 inches
Center To Center Distance Between Mounting Holes Along Length:
0.310 inches
Basic Shape Style:
Solder/solderless
Conductor Accommodation Type:
Flat lug slotted w/one hole all ends
Material:
Copper alloy
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A006b0
