**Overall Length:**

0.680 inches

**Maximum Conductor Size Accommodated:**

10 awg

**Electrical Insulation Feature:**

Insulating sleeve

**Identification Code Color:**

White

**Basic Shape Style:**

Crimp cap

**Conductor Accommodation Type:**

Recessed barrel single end

**Special Features:**

300 volt rating, 105 degrees c

**Material:**

Copper alloy conductor accommodation plastic polyamide insulation

**Surface Treatment:**

Tin conductor accommodation single layer

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A006b0
