Overall Length:

0.970 inches

Overall Width:

0.260 inches

Material Thickness:

0.040 inches

Maximum Conductor Size Accommodated:

10 awg

Electrical Insulation Feature:

Insulating sleeve

Mounting Method Style:

Open slot w/lip

Mounting Tongue Width:

0.260 inches

Mounting Facility Thickness:

0.040 inches

Identification Code Color:

Blue

Mounting Slot Width:

0.136 inches

End Application:

5kw tqg generator family

Basic Shape Style:

Crimp

Conductor Accommodation Type:

Recessed barrel single end

Material:

Plastic polyamide insulation

Surface Treatment:

Tin single layer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A006b0
