Overall Length:

1.170 inches

Overall Height:

0.672 inches

Overall Width:

1.020 inches

Environmental Protection:

Humidity resistant and ozone resistant and salt spray resistant and shock resistant and corrosion resistant and vibration resistant

Operating Temperature Range:

-85.0/+392.0 degrees fahrenheit

Block Type:

Regular

Current Rating In Amps:

7.5

Mounting Method:

Track

Wire Size Accommodated:

20.000 awg

Terminal Design:

Feedback

Precious Material And Location:

Pins gold

Precious Material And Weight:

0.040 gold grains, troy

Precious Material:

Gold

Terminal Type And Quantity:

15 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A510r0
