Overall Length:

0.300 inches

Thru-hole Diameter:

0.109 inches

Electrical Insulation Feature:

Uninsulated

Basic Shape Style:

Sealing sleeve

Conductor Accommodation Type:

Straight barrel all ends

Material:

Copper

Precious Material And Location:

External surface gold

Precious Material And Weight:

0.040 gold grains, troy

Precious Material:

Gold

Surface Treatment:

Gold single layer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A006b0
