Mounting Method Style:

Expansion slot

Basic Shape Style:

Crimp

Conductor Accommodation Type:

Clamping pointed ears single end

Special Features:

Insulation od 2.79 in (max), insulation resistance 50k, voltage 250v ac max, dielectric withstanding voltage 1500v ac temperature -0 to +75 degrees c, accomodates 18-20 awg

Material:

Copper alloy 511

Surface Treatment:

Tin single layer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A006b0
