Overall Height:

1.380 inches

Overall Width:

1.890 inches

Operating Temperature Range:

-40.0/+90.0 degrees celsius

End Application:

Programmable logic control; whidbey island class lsd

Mounting Method:

Track

Wire Size Accommodated:

Between 22.000 awg and 12.000 awg

Special Features:

2block is for grounding; housing material of self-extinguishing, polyamide 6.6 with ul 94-v2 flammability rating; nickel plated terminals and ss screws; high copper content copper-alloy for excellent conductivity; four-sided funnel wire guides

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
