Overall Length:

3.380 inches

Overall Width:

1.620 inches

Overall Thickness:

Between 0.200 inches and 0.500 inches

End Application:

Virginia class submarine, ssn-774; operator mnl

Mounting Configuration:

1 hole on each end, 0.7500 inch in diameter, 0.265 and 3.102 inches from left short side

Unit Type:

Angle

Mounting Method:

Hole

Wire Accommodation Quantity:

4

Wire Accommodation Size:

4 holes, 0.190-24 unc-2b in 2 rows of 2

Special Features:

Stepped: 0.200 inch high on either end and 0.500 inch in middle; drawing calls this: terminal block

Material:

Copper alloy, astm b152, type ofe

Material:

Copper alloy, astm b152, type ofe

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T174-b
