**Overall Length:**

1.000 inches

**Maximum Conductor Size Accommodated:**

14 awg

**Largest Diameter:**

0.170 inches all ends

**Electrical Insulation Feature:**

Insulating sleeve

**End Application:**

Jet engine test instrumentation; cable assembly

**Basic Shape Style:**

Crimp

**Conductor Accommodation Type:**

Straight barrel all ends

**Product Name:**

Inavy): butt splice

**Special Features:**

Butted barrel seam w/ insulated grip; maximum operating temp: 221 degrees fahrenheit; terminal material: etp copper; terminal plating: tin; wire range: 16-14 awg

**Material:**

Plastic polyamide

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A006b0
