Conductor Splice - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5940-01-535-0974

Overall Length:
1.000 inches
Maximum Conductor Size Accommodated:
14 awg
Largest Diameter:
0.170 inches all ends
Electrical Insulation Feature:
Insulating sleeve
End Application:
Jet engine test instrumentation; cable assembly
Basic Shape Style:
Crimp
Conductor Accommodation Type:
Straight barrel all ends
Product Name:
Inavy): butt splice
Special Features:
Butted barrel seam w/ insulated grip; maximum operating temp: 221 degrees fahrenheit; terminal material: etp copper; terminal plating:
tin; wire range: 16-14 awg
Material:
Plastic polyamide
Shelf Life:
N/a
Unit Of Measure:
<del></del>
Demilitarization:
No
Fiig:
A006b0
