Overall Length:

1.000 inches

Maximum Conductor Size Accommodated:

14 awg

Largest Diameter:

0.170 inches all ends

Electrical Insulation Feature:

Insulating sleeve

End Application:

Jet engine test instrumentation; cable assembly

Basic Shape Style:

Crimp

Conductor Accommodation Type:

Straight barrel all ends

Product Name:

Inavy): butt splice

Special Features:

Butted barrel seam w/ insulated grip; maximum operating temp: 221 degrees fahrenheit; terminal material: etp copper; terminal plating: tin; wire range: 16-14 awg

Material:

Plastic polyamide

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A006b0
