Slot Width:

0.280 inches first end

Overall Length:

0.803 inches

Overall Width:

0.374 inches

Material Thickness:

0.046 inches

Maximum Conductor Size Accommodated:

16 awg

Largest Width:

0.374 inches second end

Wire Hole Diameter:

0.097 inches second end

Electrical Insulation Feature:

Uninsulated

Mounting Method Style:

Slot

End Application:

Nsn 2320-01-530-3843; truck, cargo

Basic Shape Style:

Solder/solderless

Conductor Accommodation Type:

Flat lug w/angular notch single end

Product Name:

Connector, terminal

Special Features:

Material: tin brass & tin plated

Material:

Tin

Surface Treatment:

Tin single layer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A006b0
