Overall Length:

2.250 inches

End Application:

Floodlight system

Basic Shape Style:

Mechanical compression

Product Name:

Lug, terminal single nbr14-nbr2

Special Features:

1.250inch height; nbr6-awg-350 kcmil conductor size range; 0.375instud hole; 1.13in tongue width; 28.7mm tongue width; rohs compliant; aluminum mechanical lug offered in single and dual conductor and feature high strength, low resistance aluminum construction. Both are ul listed/csa certified for copper and aluminum conductor applications. Single and dual conductor versiona accept conductors for 6 awg-250 mcm

Material:

Aluminum

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A006b0
