Overall Length:

19.000 inches

Overall Width:

7.400 inches

Pole Quantity:

1

Block Type:

Thermal

Wire Size Accommodated:

16.000 awg

Special Features:

Isothermal construction minimizes errors cause by thermal gradients; recommended for high precision thermocouple temperature measurement applications; open thermocouple detection circuitry

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510r0
