End Application:

2320-01-540-2038 truck, utility

Product Name:

Terminal assembly, power, feed thru

Special Features:

Temperature: minus 50.0f to 180.0f without damage or deterioration; shall withstand: 28.0vdc, 250.0amp continuous load

Material:

Steel

Surface Treatment:

Zinc first layer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A006b0
