**End Application:**

2320-01-540-2038 truck, utility

**Product Name:**

Terminal assembly, power, feed thru

**Special Features:**

Temperature: minus 50.0f to 180.0f without damage or deterioration; shall withstand: 28.0vdc, 250.0amp continuous load

**Material:**

Steel

**Surface Treatment:**

Zinc first layer

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A006b0
