Overall Length:

1.762 inches

Overall Width:

0.625 inches

Material Thickness:

0.045 inches

Basic Shape Style:

Solder/solderless

Conductor Accommodation Type:

Flat lug slotted w/one hole single end

Product Name:

Conn ring 6 awg number 5/16 inch terminyl

Special Features:

Terminal type is circular; mounting type is free hanging (in-line); termination is crimp; insulation is nylon; color is blue

Material:

Copper except insulation

Material Specification:

Astm b-152 assn standard single material response except insulation

Surface Treatment:

Tin except insulation single layer

Surface Treatment Specification:

Astm b-545 assn standard single treatment response except insulation single layer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A006b0
