Mounting Hole Diameter:

0.175 inches

Body Style:

Barrier type

Terminal Row Quantity:

2

Distance Between Terminal Row Centers:

0.42 inches

Boardlength:

5.12 inches

Boardwidth:

1.12 inches

Base Thickness:

0.34 inches

End Application:

Missile

Current Rating In Amps:

20.0

Mounting Facility Type And Quantity:

4 unthreaded hole

Terminal Pattern Arrangement:

Multi-row

Product Name:

Terminal block - closed back

Special Features:

Rated at 250 volts ac/dc. Is rohs compliant. For copper wire only size 12 to 22 awg. Has 10 screw terminals.

Material:

Plastic phenolic board

Surface Treatment:

Tin terminals

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A011b0
