Overall Length:

0.986 inches

Thru-hole Diameter:

0.067 inches

Maximum Conductor Size Accommodated:

16 awg

Largest Diameter:

0.157 inches all ends

Electrical Insulation Feature:

Insulating sleeve

Identification Code Color:

Red

End Application:

Link 16 alaska

Basic Shape Style:

Sealing sleeve

Product Name:

Insulated butt splice

Conductor Accommodation Type Style:

Recessed barrel all ends

Special Features:

Has a 600.0 voltage rating.

Material:

Plastic vinyl insulation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A006b0
