Block Type:

Thermal

Special Features:

Connects input signals to the scxi-1100, scxi-1102/b/c and scxi-1104/c modules; general-purpose terminal block with onboard temperature sensor for cold-junction compensation; also works with scxi-1181 and scxi-1181k modules; attaches directly to front of the scxi module

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A510r0
