Overall Length:

2.750 inches

Overall Diameter:

0.500 inches

Thru-hole Diameter:

0.495 inches

Maximum Conductor Size Accommodated:

4 awg

Electrical Insulation Feature:

Insulating sleeve

Identification Code Color:

Yellow

Basic Shape Style:

Sealing sleeve

Features Provided:

Conductor inspection accommodation

Conductor Accommodation Type Style:

Recessed barrel all ends

Special Features:

Is crimp style

Material:

Plastic polyamide insulation

Surface Treatment:

Tin except insulation single layer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A006b0
